

1495

**UNIVERSITY OF
ABERDEEN**

Clinical Facilitator

Elgin, Part-time (80%) or Full-time

**INSTITUTE OF EDUCATION IN HEALTHCARE & MEDICAL SCIENCES,
SCHOOL OF MEDICINE, MEDICAL SCIENCES & NUTRITION**

Closing date: **27 February 2026**

Interview date: **To Be Confirmed**

Reference number: **MED252A**

INTRODUCTION

You will join the Institute of Education for Healthcare and Medical Sciences (IEHMS) as one of a team of academic, administrative and clerical staff who support the medicine degree programme.

This post is part of a team of clinical staff who support the delivery of high quality undergraduate medical education in both the clinical environment of wards, clinics and other appropriate areas as well as simulated clinical environments in training areas. You will join a multi-professional team of experienced staff from a range of clinical backgrounds including medicine, nursing and the allied health professions, all of whom are responsible for the development and delivery of innovative and high-quality learning experiences for medical undergraduate students.

This post is based in Dr Gray's Hospital, Elgin and will work on a day-to-day basis alongside other educational colleagues based in Elgin, reporting to Dr David Williams, the Undergraduate Lead.

Your line manager will be Miss Ashley Meldrum, Senior Lecturer and through them you will be responsible to the Director of Clinical Skills and Director of IEHMS. You will also maintain close links with NHS Grampian's Senior Nurse for Professional Development purposes.

JOB DESCRIPTION

MAIN PURPOSE OF THE ROLE:

These roles are designed to help lead, facilitate, deliver and evaluate clinical and procedural skills training primarily for medical students across the Aberdeen MBChB programme, increasing the resources for advanced clinical skills and procedural training. The role will also help the successful applicant develop their awareness of administering and managing an undergraduate curriculum and further develop their skills and knowledge in clinical education. The role will also involve close ongoing contact with clinical areas across NHS Grampian sites in particular Dr Grays, with the purpose of optimising learning opportunities for students in the workplace in order to ensure they are best equipped for clinical practice. This will involve negotiating access to patients, both with staff responsible for the clinical area and with the patients themselves. From time to time, you may be involved with the clinical skills teaching of Physician Associate, Dental and other healthcare students.

KEY RESPONSIBILITIES:

- Help support the development of learning opportunities primarily for medical students for clinical and procedural skills development on an ongoing basis as the delivery of health care changes.
- Lead and deliver education and training in, and assessment of, advanced clinical examination and procedural skills to undergraduate medical students, ensuring training is consistent with established best practice.
- Facilitate the transfer of student learning of clinical and procedural skills from the Clinical Skills Centre to the workplace.
- Liaise with clinicians (nursing, medical and others) to help with the identification of appropriate learning opportunities for students in clinical areas.
- Support the Lead of Clinical Placements and in ensuring that relevant clinical policies and procedures are followed in the Clinical Skills Centre.
- Support the Clinical Educator in acting as a point of reference for current national standards for the performance of clinical and procedural skills.
- To be part of the wider team in the IEHMS and to contribute to wider divisional activities such as OSCEs/written exam invigilation, Open Days and any other relevant duties.

CANDIDATE BACKGROUND

The post holders will need to be experienced healthcare professional who have the confidence and professional credibility to carry out this role effectively and are committed to supporting an excellent clinical learning environment.

These would be excellent development opportunity for nursing staff interested in further developing their career in education who are currently on agenda for change (afc) grade 5 or 6.

TERMS OF APPOINTMENT

Salary will be at the appropriate point on the Grade 6 scale, £38,784 - £46,049 per annum (pro-rated for part-time staff), and negotiable with placement according to qualifications and experience.

Any appointment will be made subject to satisfactory references and probation period.

For further information on various staff benefits and policies please visit www.abdn.ac.uk/staffnet/working-here

This role is based in the UK and as such the successful candidate will be required to live and work in the UK.

In accordance with the UKVI immigration rules, it is with regret that this role **DOES NOT MEET THE SALARY REQUIREMENTS** for sponsorship under the Skilled Worker route. For this role, the successful candidate must be able to demonstrate their right to work in the UK prior to commencing employment and obtain the right to work in the UK. Information on other visa options is available at <https://www.gov.uk/check-uk-visa>.

The candidate appointed to this post may be eligible for homeworking on an occasional or regular basis. For more information please refer to our [Homeworking Policy](#).

This post is jointly supported by the University of Aberdeen and NHS Grampian.

It is funded from NHS Grampian's ACT moneys. ACT (Additional Cost of Teaching) is funding which NHS Boards receive from the Scottish Government for activities and costs incurred by the NHS in supporting undergraduate medical education, such as the activity relating to these posts.

AT A GLANCE

SALARY:

Grade 6

£38,784 - £46,049 per annum, pro rata

HOURS OF WORK:

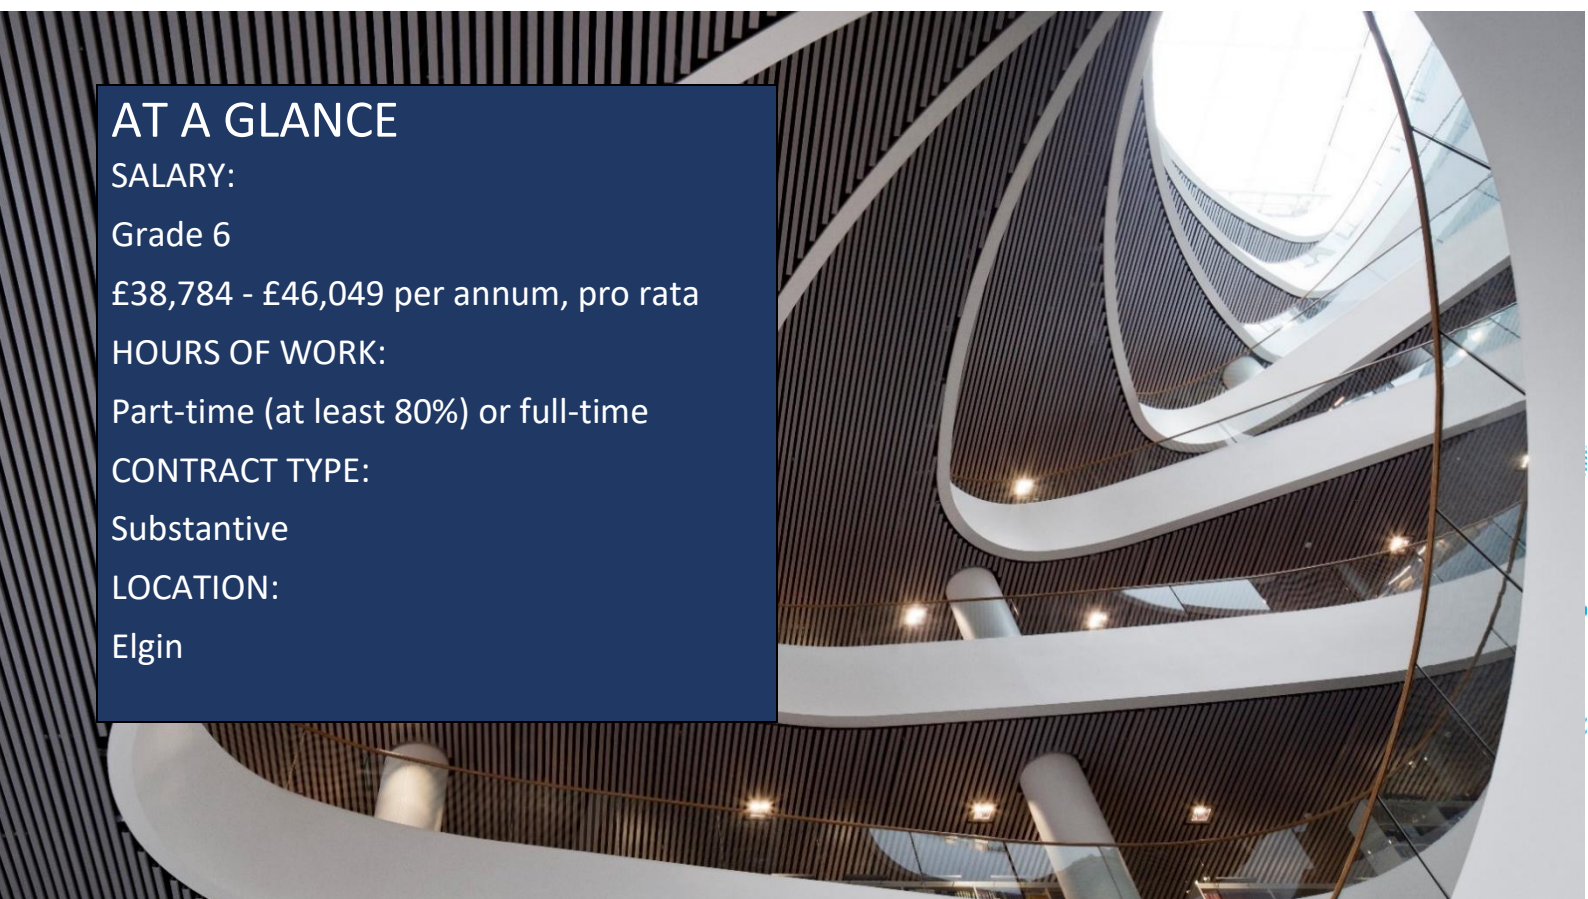

Part-time (at least 80%) or full-time

CONTRACT TYPE:

Substantive

LOCATION:

Elgin

PERSON SPECIFICATION

	ESSENTIAL	DESIRABLE
<p>Education/Qualifications Academic, technical and professional education and training</p>	<ul style="list-style-type: none"> Experienced healthcare professional with at least two years at a/c grade 5/6 or equivalent Evidence of recent experience and competence in a wide range of procedural skills (e.g. Venous cannulation, venepuncture, male and female catheterisation). Wide breadth and/or depth of specialist knowledge in clinical and procedural skills to work within IEHMS clinical programmes (e.g. clinical examination, venous cannulation, resuscitation) Educated to at least degree level Current registration with an appropriate regulatory body (e.g. NMC) 	<ul style="list-style-type: none"> Ideally ILS provider Educational qualification (e.g. Certificate / Diploma Education)

ESSENTIAL

DESIRABLE

Other

e.g. special circumstances (if any) appropriate to the role such as unsocial hours, travelling, Gaelic language requirements etc.

- Good time management and organisational skills
- Prepared to work flexibly on occasion to support outreach activities such as weekend university open days

UNIVERSITY OF ABERDEEN

open to all and dedicated to the pursuit of truth in the service of others

The University of Aberdeen is a broad based, research intensive University, and we put students at the centre of everything we do. Outstanding in a wide range of discipline areas, Aberdeen is credited for its international reach and commercialisation of research ideas into spin out companies. The University has over 16,000 matriculated students and 3,600 staff representing 130 nationalities. We encourage bold thinking, creativity and innovation, and we nurture ambition with many opportunities for professional and personal development in an inclusive learning environment which challenges and inspires.

CURRENT CONTEXT

The University continues to uphold the principals of the foundational purpose. We remain committed to delivering positive change both locally and globally. We work together and with our partners in an interdisciplinary way, catalysing world-leading research in our areas of strength: Energy Transition; Social Inclusion and Cultural Diversity; Environment and Biodiversity; Data and Artificial Intelligence; and Health, Nutrition and Wellbeing. We are investing in our future and have committed £100m to upgrading our campus, including the new fully digitised Science Teaching Hub, the regeneration of the historic King's Quarter and a new Business School building. Our commitment to our students, campus and community has led to us being named a Top 20 UK institution in two major league tables¹ and 4th in the UK for overall student satisfaction².

¹ The Times and Sunday Times Good University Guide 2023 and the Guardian University Guide 2023

² National Student Survey (NSS) 2022

ABERDEEN 2040

On our 525th anniversary as a University we launched [Aberdeen 2040](#), our strategic vision for the next 20 years. Four strategic themes will shape our learning and discovery, underlined by 20 commitments we have made against each theme:

- **Inclusive**
We welcome students, staff and partners from all backgrounds, organisations and communities. We value diversity.
- **Interdisciplinary**
We innovate in education and research by generating, sharing and applying new kinds of knowledge. We learn together.
- **International**
We connect with others and extend our networks and partnerships around the world. We think across borders.
- **Sustainable**
We understand and nurture our environment, and take care of our resources, including our people and finances.

We work responsibly.

OUR EDUCATION

Recognised as the Scottish University of the Year in the Times and Sunday Times Good University Guide 2019, we remain true to our roots as an ancient Scottish university, combining breadth and depth in our degree programmes and drawing strength from the quality of our research. Our flexible curriculum encourages students to grow as independent learners and therefore to thrive as graduates in the diverse workplaces of the future. Our education is open to all and we are setting ambitious targets to further widen access.

OUR RESEARCH

Researchers at the University of Aberdeen have been at the forefront of innovation and excellence throughout the centuries, generating insights in medicine, science, engineering, law, social sciences, arts and humanities. This research has contributed to five Nobel prizes as well as other awards such as the Queen's Anniversary prize. Our research is intellectually rigorous working within our established areas of excellence as well as new methods of enquiry. We will continue to generate new knowledge addressing economic and societal issues with ambition and imagination, ensuring that it is globally excellent and locally relevant.

INTERNATIONAL

Aberdeen is increasing its international presence, positioning the University as a global organisation and building on established global partnerships around the world, including Qatar, China, North America, Europe. We feature in the top 50 institutions worldwide for international students³.

³ Times Higher Education World University Rankings 2021

IMPACT

In 2020 the University signed the United Nations Sustainable Development Goals accord, solidifying our commitment to developing the world in a sustainable way. In 2022 we were listed in the global Top 100 for 8 of these goals⁴.

Our highly cited work in zero-carbon technology and global outlooks makes us Scotland's best institution for environmental research⁵.

⁴ Times Higher Education Impact Rankings 2022
⁵ QS World University Rankings 2022

THE SCHOOL OF MEDICINE, MEDICAL SCIENCES AND NUTRITION

The School (<https://www.abdn.ac.uk/smmsn/index.php>) encompasses all of the disciplines that underpin today's medicine, including biomedical sciences, health sciences, nutrition and medical, medical science and dental education and these are organised into five Institutes. The largest school in the University, the SMMSN has five Institutes: the Institute of Medical Sciences (IMS), the Institute of Applied Health Sciences (IAHS), the Rowett Institute, the Institute of Education in Healthcare and Medical Sciences (IEHMS) and the Institute of Dentistry, comprising all of our undergraduate and postgraduate programmes and our own graduate entry Dental School.

Staff are line managed and research opportunities are supported through our institutes which work together in an integrated and coordinated way to deliver research and teaching across the School, details of which can be found on their websites as below.

- The Institute of Applied Health Sciences <https://www.abdn.ac.uk/iahs/>
- The Institute of Medical Sciences <http://www.abdn.ac.uk/ims/>
- The Rowett Institute <http://www.abdn.ac.uk/rowett/>
- The Institute of Education in Healthcare and Medical Sciences <https://www.abdn.ac.uk/IEHMS/>
- The Institute of Dentistry <https://www.abdn.ac.uk/dental/> <https://www.abdn.ac.uk/dental/>

Within the IMS, our scientists are working towards the creation of effective therapies for patients with a range of debilitating and life-threatening conditions. Current research areas include: arthritis and musculoskeletal medicine; cell developmental and cancer biology; immunity, infection and inflammation; metabolic and cardiovascular health; microbiology and translational neuroscience.

Within the IAHS, research is focused on improving health and health care delivery. It is home to a multidisciplinary grouping of around 100 university academic staff who conduct population and clinically-orientated health research and hosts the Health Services Research Unit (HSRU) and Health Economics Research Unit (HERU), both funded by the Chief Scientist's Office (CSO) of the Scottish Government.

As well as being the organisational home to the teaching scholarship staff and responsible for oversight of the UG and PGT programmes offered by the School, the IEHMS promotes and supports excellence in medical education through research and development, with a focus on conceptually and theoretically robust research and development which has strong potential for reaching international recognition. The highly regarded University of Aberdeen MBChB programme and several postgraduate programmes including a Masters in Clinical Education are delivered by IEHMS.

The Dental Institute runs an undergraduate BDS programme and a growing suite of masters programmes for professional development.

We have a number of specialist Centres representing areas of particular research strength and capacity within the School all of which are willing to support colleagues on projects in their areas. More information is available at the following websites.

- The Centre for Healthcare Education Research and Innovation (<https://www.abdn.ac.uk/cheri/>)
- The Centre for Health Data Science (<https://www.abdn.ac.uk/achds/>)
- The Aberdeen Cardiovascular & Diabetes Centre (<https://www.abdn.ac.uk/acdc/>) and
- The Aberdeen Centre for Arthritis and Musculoskeletal Health (<https://www.abdn.ac.uk/acamh/>)

The School is home to over 800 staff and 2000fte students. It is located on the Foresterhill site, shared with our main clinical partner, NHS Grampian, with whom we work in close collaboration at primary and secondary care levels.

This is one of the largest integrated healthcare delivery, training and research sites in Europe and has rich assets including state-of-the-art academic (research and teaching) and clinical buildings. Excellent infrastructure is also provided through core facilities for biomedical science including flow cytometry, proteomics, microscopy and genome sequencing, support for data health science projects and clinical trials.

The last major academic capital development was the opening of the Rowett Institute, occupied in March 2016, whose staff undertakes nutrition research to help improve people's lives through the prevention of ill-health and disease. Their new £40M building has provided the University of Aberdeen with a facility with unique capabilities for human nutrition and metabolic research.

MBChB Programme

Aberdeen is home to the oldest English-speaking medical school and has been training doctors since 1495. The programme has been designed to provide the appropriate basic medical education required to underpin postgraduate training and professional practice. Our programme consistently performs well in national measures of student satisfaction and was ranked as 2nd in the UK for Medicine, Guardian University Guide 2022; Top 10 in the UK for Medicine, The Times, and Sunday Times Good University Guide 2022.

Further details are available at <http://www.abdn.ac.uk/smmsn/undergraduate/medicine/index.php>.

Years 1 – 3

In the early years of the programme, the scientific basis of medicine is taught together with an introduction to the principles of disease and to clinical practice. The programme starts with the Foundations of Medicine, an introduction to Anatomy, Clinical Skills and the principles of General Practice. Teaching is organised by body system – respiratory, cardiovascular, alimentary etc and integration between science and medicine is promoted whenever possible. Teaching sessions comprise a mix of lectures, both face to face and those delivered on-line, with facilitated case based learning, small group tutorials and practical demonstrations. Much of the teaching is in the Suttie Centre, which has a state-of-the art Clinical Skills Centre (CSC) and Anatomy facility. The Clinical Skills course starts early in first year in the safe environment of the CSC, working with volunteer simulated patients and peer examination. Ward visits begin in the second term with increasing opportunities to see patients in Aberdeen Royal Infirmary and Woodend Hospital, under supervision, to practise basic skills.

A thread of Personal and Professional Development (PPD) also runs through the whole 5-year programme and includes small group discussion, plenary sessions and the development of a portfolio by each student. Student Selected Components (SSCs) allow students to follow up areas of specific

interest both in and out of medicine. There are medically related SSCs in years 1 and 2, while in Year 3 students have the opportunity to spend 6 weeks studying a subject within the general theme of “Medical Humanities”. Medical Humanities aims to give students an alternative perspective on medicine, healthcare, illness, or disability. This is achieved by studies in an extensive range of Humanities subjects including anthropology, economics, history, sociology, educational studies, divinity, art and music.

Year 4

This begins after an extended Easter break in Year 3 and lasts until the end of Year 4. It commences with a 4-week, project-based SSC on “Clinical Effectiveness”. Students then embark on a programme of seven 6-week clinical rotations across Medicine, Surgery, Reproduction & Child Health, Long-Term Conditions, General Practice and Mental Health and a Speciality preference/diagnostics block. At this stage, students are in small groups on the wards and in clinics, gaining experience in the application of the knowledge and skills they have acquired in Years 1 – 3. These blocks run in parallel in Aberdeen and beyond and all students undertake at least one block in Inverness. In addition, 21 places are made available annually for 4th year medical students to spend their entire academic year based in and around Inverness.

Year 5

This is very much an apprentice year to prepare students for safe practice as a professional member of the healthcare team. The focus is on patient care in its widest sense, rather than specific disease within a body system. The year begins with one week of Preparation for Professional Practice which is undertaken either in Inverness or in Aberdeen to facilitate the transition from Year 4 to Year 5. Then there are 8-week clinical blocks in Medicine, Surgery and Mental Health or General Practice, with a degree of student preference in the sub-specialty. Attachments are in Aberdeen, Inverness and beyond – including the Highlands and Islands – and afford a wide variety of clinical experience. Student Assistantships form part of all of these attachments. There is also an 8-week project-based elective which is organised by the student and usually can take place in any part of the world. The year is completed with a revision week and one further week of Preparation for Professional Practice just before and after the final exams, which facilitates the transition from student life to working life as a Foundation Doctor.

NHS GRAMPIAN

NHS GRAMPIAN incorporates Aberdeen Royal Infirmary, Royal Aberdeen Children’s Hospital and Aberdeen Maternity Hospital and the Aberdeen Dental Hospital on the Foresterhill site, together with the adjacent Royal Cornhill Hospital. Together these form one of the largest single site teaching hospitals in Europe. Other sites include Woodend Hospital in Aberdeen and Dr Gray’s Hospital in Elgin, as well as terminal care facilities at Roxburghe House.

ABERDEEN ROYAL INFIRMARY (ARI), Foresterhill, has a complement of 922 beds and is situated to the north-west of Aberdeen city on the teaching hospital site with the Medical School of the University of Aberdeen. This is the principal adult acute hospital of the Grampian Area providing a complete range of medical and surgical specialities including General Medicine and allied specialities (Cardiology,

Respiratory, Gastroenterology, Infectious Diseases, Neurology, Diabetes & Endocrinology, Haematology, Nephrology, Oncology, Dermatology, Blood Transfusion, Rheumatology and Geriatrics), General Surgery and allied specialities (Cardiothoracic, Vascular, Orthopaedics, Neurosurgery, Plastics, Dental, ENT, Burns, Transplantation, Ophthalmology), ITU, A & E, Radiotherapy and Anaesthetics. Aberdeen Royal Infirmary is also a major tertiary referral centre for the North and North East of Scotland in a number of specialities.

ROYAL ABERDEEN CHILDREN'S HOSPITAL is the major tertiary referral centre for children in the North-East Scotland. The new Royal Aberdeen Children's Hospital (RACH) provides a comprehensive range of paediatric services. The facility, which opened on 25th January 2004, replaced the previous children's hospital built in 1929 and is sited on the existing hospital campus with a direct bridge link to Aberdeen Royal Infirmary on the Foresterhill site. The Combined Child Health Service provides acute and community child health services across Grampian and to some children from Tayside, Highland, Orkney and Shetland. The Service was established in 1999 and provides all secondary and tertiary acute paediatric services.

ABERDEEN MATERNITY HOSPITAL is the tertiary referral centre for maternity care for North-East Scotland, in addition to a long history of delivering excellent clinical services, the hospital continues to have worldwide impact in developing and improving maternity care. Clinically based studies can benefit from the population-based Aberdeen Maternity and Neonatal Databank, which has prospectively recorded information about all Aberdeen city births for more than fifty years, and ongoing interests in fertility and aetiology of congenital malformations.

DR GRAY'S HOSPITAL, ELGIN

Dr Gray's hospital Elgin, which is situated on the south coast of the Moray Firth within an area of outstanding natural beauty. Elgin is situated in the North East of Scotland, 40 miles from Inverness and 70 miles from Aberdeen.

Dr Gray's is the hub for a group of 4 GP run hospitals throughout Moray with 120 beds. The Dr Gray's site has an A and E, general medical and surgical/orthopaedic unit and HDU as well as paediatrics, O and G and psychiatry. We have access to training facilities at the Moray College and are developing an onsite training area for near in situ simulation training.

The Undergraduate Team look after over 20 medical students in primary and secondary care. Our clinical workload is a very general case mix providing students with excellent learning opportunities. We are ably supported by our 3 enthusiastic librarians and educational leads led by Dr Williams, and we have close links and support with the faculty in Aberdeen. We have a more remote and rural focus and a multi-professional outlook and this is a developing local faculty, and the successful candidate would find the role stimulating and rewarding.

ABERDEEN AND ABERDEENSHIRE

Scotland's third largest city, Aberdeen sits on the coast between the mountains of Aberdeenshire and the stunning North Sea coastline. The Aberdeen City region is a can-do place that is actively investing, at scale, in its future.

Renowned as a Global Energy Hub, Aberdeen is a vibrant, entrepreneurial region, home to a unique mix of business opportunities and specialist skills across various sectors including energy, technology, life sciences and food & drink. More than 20% of Scotland's top businesses are located in this region which is taking great strides to ensure that it continues to compete on a world stage. Investments of more than £10 billion of public and private infrastructure is due to be delivered before 2030, marking an exciting time to be part of a genuine world-class location.

Built from sparkling local granite Aberdeen has earned the name of the Silver City. As the energy capital of Europe, Aberdeen nevertheless retains its old-fashioned charm and character making it an attractive place in which to live, work and study. Due to its global business and international energy industry credentials, Aberdeen is well served by local and national transport infrastructure with excellent rail networks that run both North and South of Scotland and the rest of the UK. It also acts as an international travel hub. Flying time to London is just over one hour with regular daily flights and serves international travel to European centres such as Amsterdam (Schiphol) and Paris (Charles de Gaulle) as well as flights to other European destinations.

The City and the surrounding countryside provide a variety of urban, seaside and country attractions. Aberdeen has first class amenities including [His Majesty's Theatre](#), [Music Hall](#), [Art Gallery](#), [the P&J Arena](#), [Museums](#), and [Beach Leisure Centre](#). The City is framed by its accessible beach front which is within a short walk of the city centre and there are an array of activities available across the region such as hill walking; mountaineering; sailing; surfing; salmon, trout and sea fishing; golf; sailing; surfing and windsurfing. The surrounding countryside, known as Aberdeenshire, is also one of Scotland's most appealing regions. Royal Deeside and the Cairngorms National Park are within easy access of the city, and there are a variety of towns and villages scattered along the coastline.

The city and the surrounding area have ranked consistently highly in nationally recognised quality of life surveys, coming out top 10 as one of the best places to live in Scotland in 2020 in the annual Bank of Scotland survey.

EQUALITY AND DIVERSITY

The University values and celebrates a diverse working and learning environment and recognises the richness this brings, both in terms of contributing to the success of the University and creating safe and inclusive cultures. The University welcomes applications from individuals with diverse lived experiences.

The University supports flexible working, including hybrid working arrangements, and has policies in place to facilitate this where it is appropriate. The policies can be found at <https://www.abdn.ac.uk/staffnet/working-here/flexible-working--5607.php>.

The University is committed to progressing gender equality across all its functions and has been a proud member of the Advance HE Athena Swan Charter, achieving an institutional Bronze award, one Silver departmental award for the School of Psychology and eleven departmental Bronze awards. LGBTQ+ equality is championed through the University's membership of the Stonewall Diversity Champions Programme, where the University has achieved a Silver award in the Workplace Equality Index. The University is on a continual journey to respond to, and combat, GBV in our community and beyond. We are proud to be working towards the EmilyTest Charter, in partnership with the charity, EmilyTest. We all have a role to play in knowing how to signpost colleagues and students to support for gender-based violence, and training and support is available to all staff on this topic.

The University is signed up to Advance HE's Race Equality Charter, affirming the University's commitment to the Charter's aim of improving the representation, progression and success of staff and students who identify as belonging to a racialised group. The University launched its Antiracism Strategy in 2022, representing a bold framework for progress on race equality. Recognising the importance of addressing the under-representation of racialised groups in the senior team, the University's new Recruitment and Selection Policy embeds specific positive action measures to address this.

The University is delighted to be accredited as a [Disability Confident](#) employer and strives to ensure that disabled staff and students have the opportunity to work and study in an inclusive, accessible and supportive environment. The University's Wellbeing Strategy commits it to progressing work to tackle stigma related to mental health and action to promote and improve health and wellbeing for staff and students. Candidates who are British Sign Language (BSL) users can contact us directly by using [contact SCOTLAND-BSL](#)

The University's work on equality, diversity and inclusion is supported by a range of networks and engagement activities, designed to provide safe spaces and raise awareness of the support available and the steps everyone can take to create inclusive campuses.
